SUPPLEMENT

TO

'TOPOGRAPHICAL BOTANY,' ED. 2.

BY

ARTHUR BENNETT, F.L.S.

THE following records have accumulated since the publication of the second edition of *Topographical Botany* in 1883. The compilation was undertaken at the suggestion of Mr. J. G. Baker and Rev. W. W. Newbould, the editors of that edition. They include, besides records published since 1883, some which were overlooked when the work was compiled. Probably many may have been overlooked, and I shall be very glad to receive information about these, or any corrections to the present list.

Rubus is entirely omitted; the publication of the Rev. W. Moyle Rogers's *Handbook* is a new starting point for British Rubi, and the appendix to that work may be consulted for comital distribution. In *Hieracium* only the well-known Backhousian species are noticed. *Salix* is almost entirely omitted; the unfortunate admission of two sets of names into the 9th ed. of the *London Catalogue* has made the genus difficult to understand.

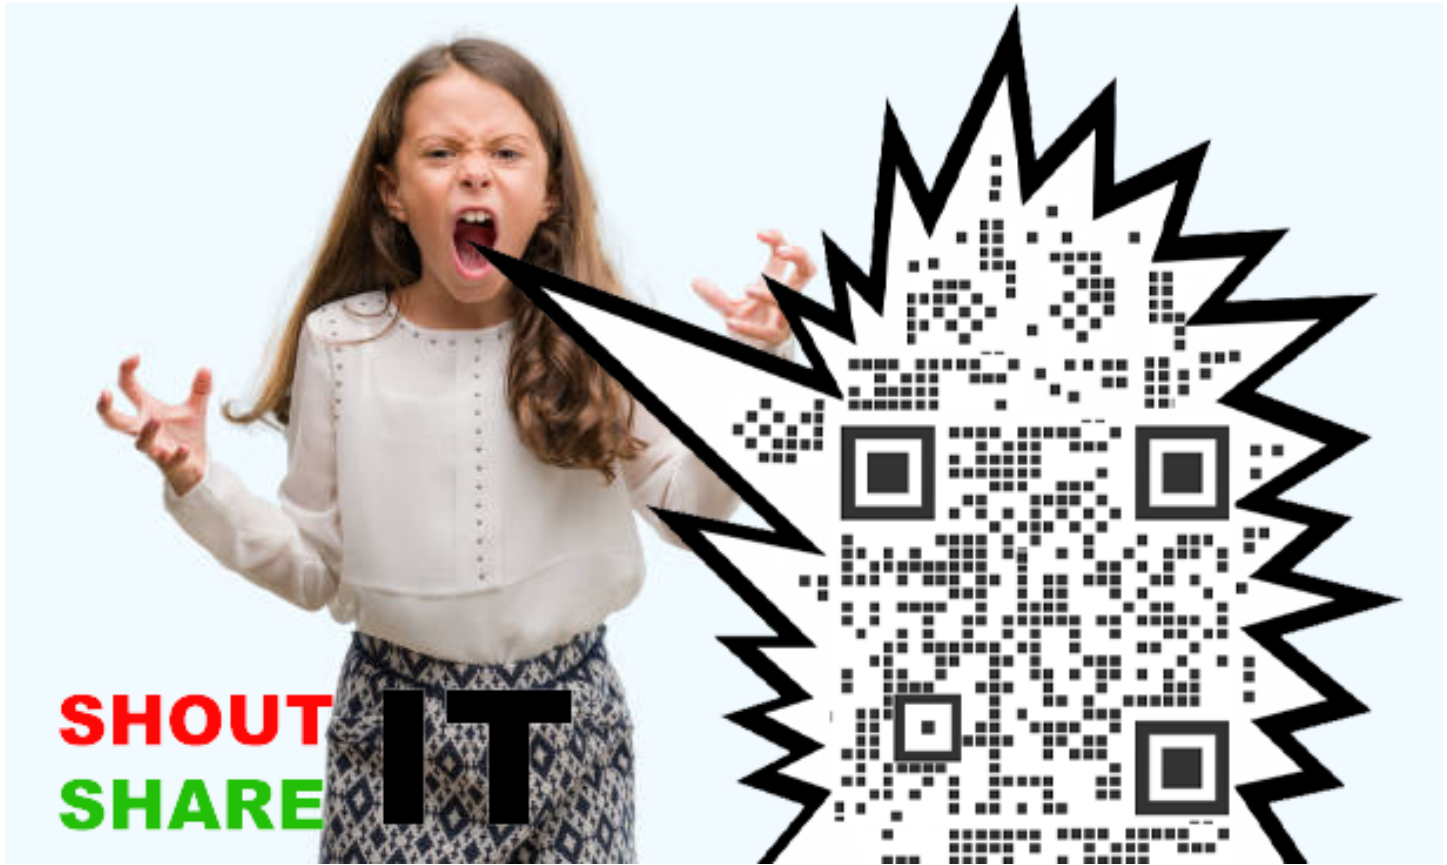

Species and subspecies added to the British Flora since 1883 are included, but not hybrids, unless they have received specific names in the usual acceptation of that term.

The nomenclature and arrangement is that of *Topographical Botany*, ed. 2; a figure in () signifies that the plant is not indigenous in the county indicated, in [] that it is erroneously recorded. For plants of which detailed distribution is not given in the work, only the figures are given.

The Supplement is brought up to the end of 1903.

The following abbreviations are employed:—

- Ann. S. N. H. = Annals of Scottish Natural History.
Exch. Club . = Botanical Exchange Club Reports.
Flora = The published Flora of the county; a list of those included is appended.
J. Bot. = Journal of Botany.
Nat. = The Naturalist: Sc. Nat. = Scottish Naturalist.
Rec. Club . . = Record Club Reports.
Science G. . . = Science Gossip.
Wats. Club . . = Watson Botanical Exchange Club.

In records quoted from published works, the name of the recorder is not printed here, for reasons of space; it can be ascertained by consulting the original record. The page of the Journals quoted is given, but it is not thought necessary to do this for Floras or Reports, both of which are systematically arranged.

sp. = specimen received; ! = specimen seen; conf. = confirmation of doubtful record.

LIST OF FLORAS QUOTED.

- Flora of Anglesey and Carnarvonshire. J. E. Griffith, F.L.S. 1895.
 Flora of Berkshire. G. C. Druce, M.A. 1897.
 Flora of Berwick-upon-Tweed. G. Johnston, M.D. Vol. I., 1829.
 Vol. II., 1831.
 Flora of Cheshire. Lord de Tabley (Edited by Spencer Moore). 1899.
 Flora of Cumberland. W. Hodgson. 1898.
 Contributions to the Flora of Derbyshire. Rev. W. H. Painter.
 1889. (= Flora 1.)
 Flora of Derbyshire. Rev. W. R. Linton. 1903. (= Flora 2.)
 Flora of Dorsetshire. J. C. Mansel-Pleydell, B.A. Ed. 2. 1895.
 Flora of Dumfriesshire. G. F. Scott Elliot, M.A. 1896.
 Flora of Hampshire. F. Townsend, F.L.S. 1883.
 Flora of Herefordshire. Revs. W. H. Purchas and A. Ley. 1889.
 Flora of Hertfordshire. A. R. Pryor, F.L.S. (Edited by B. Daydon Jackson.) 1887.
 Flora of Kent. F. J. Hanbury, F.L.S., and Rev. E. S. Marshall, M.A. 1899.
 Flora of the English Lake District. J. G. Baker, F.R.S. 1885.
 Flora of Leicester. Sub-Committee of Leicester Lit. & Phil. Soc. 1886. Leicester.
 Botany and Outline Flora of Lincolnshire. F. A. Lees, M.R.C.S. 1892. Sheffield. (From White's History, &c., of the County.)
 Flora of Oxfordshire. G. C. Druce, M.A. 1886.
 Flora of Perthshire. Dr. F. B. W. White. (Edited by J. W. H. Trail, F.R.S.) 1898.
 Flora of Somerset. Rev. R. P. Murray, M.A. 1896.
 Flora of Staffordshire. J. E. Bagnall, A.L.S. (Suppl. to Journ. Bot.) 1901.
 Flora of Suffolk. Rev. W. M. Hind, LL.D. 1889.
 Flora of Warwickshire. J. E. Bagnall, A.L.S. 1891.
 The Flowering Plants of Wilts. Rev. T. A. Preston, M.A. 1888.
 Flora of the East Riding of Yorkshire. J. S. Robinson. 1902.
